

Professional Development Workshop

How Montessori Enriches the Ontario Curriculum Part 2

Saturday February 25, 2012

9:30 a.m. – 12:00 p.m.

12 Bannockburn Ave. Toronto, ON M5M 2M8

If you were asked to compare the Montessori curriculum to traditional public school, your first response would probably be that the Montessori curriculum is more and the Montessori student would be more advanced academically than his/her public school peers. This is true in some areas of the curriculum; however, as a teacher, are you confident (to) about conveying this to the parents. Are you familiar enough with both curricula to be able to express areas where you are supporting the Ontario Curriculum? This workshop will examine and compare the Montessori curriculum to the Ontario standards from Kindergarten through Grade 6. Participants will leave the workshop with ideas and strategies on how to incorporate these standards in their classrooms and create meaningful, Montessori lessons in the areas not covered in the typical Montessori classroom.

“If education is always to be conceived along the same antiquated lines of a mere transmission of knowledge, there is little to be hoped from it in the bettering of man's future. For what is the use of transmitting knowledge if the individual's total development lags behind?”
Maria Montessori, *The Absorbent Mind*

MTC is pleased that Sarah Enright, an experienced Montessorian and currently Principal of Montessori Country School in Nobleton will share her expertise and knowledge with those attending this workshop.

We look forward to seeing you at our January workshop.
